THE SECRET'S IN THE SCIENCE®

# ORGANICALLY CHELATED TRACE ELEMENT, VITAMIN AND AMINO ACID DRENCH

Calf Care® is an organically chelated trace element, vitamin and amino acid supplement specifically designed for calves under 3 months old, the critical growth period of the calf.

Calf Care® is formulated with the optimum balance of micro-nutrients to support the development of an efficient immune system and help them to achieve their growth potential. A high level of bioavailability means that trace elements and minerals are stored in body tissues to be used when required.

## THE SCIENCE BEHIND CALF CARE®

### TRACE ELEMENTS

A combination of minor minerals (or trace elements) are used daily for hormone production, enzyme formation, immune response, components of vitamins and amino acids, cell metabolism, etc

### MAJOR ELEMENTS

Help major functions such as growth, bone formation and skeletal development.

### USE ALONGSIDE...

#### ENERGY BOOST PLUS®

- Four energy sources in one product with chelated trace elements and vitamins
- Indicated for use in weak calves or 'downer cows' in need of a rapid source of energy

## AGRI-LLOYD CATTLE CARE PRODUCTS

**CALF CARE®**  
Up to 3 months

**HEIFER CARE®**  
From 3 months up to and including mid/late pregnancy

**COW CARE®**  
Dairy Cows
